Why “City.com” Sites are so Powerful

- **NATURAL BRANDS** – Because our visitors know the name of Plainview.com, a major source of our traffic is from direct visitors. With this direct “type-in” traffic (to Plainview.com), our brands deliver qualified traffic without having to be over dependent on the Search Engines.
- **RELEVANT CONTENT** – Search Engine traffic is still critical and natural URL’s with relevant content rank high for users searching for specific terms.
- **BRAND RECOGNITION, LOYALTY & TRUST** – When users do see links that include the natural “City.com” address, they are more likely to click and visit that site. And once they get there, they are more likely to trust the information they see from the “City.com” site.
- **QUALIFIED TRAFFIC** – When people come to a “City.com” site, they come with the purpose of seeking out a local business or for things to do and see in that city. Therefore, they have a high-propensity to use the site for taking action and are not simply attracted by a celebrity or breaking news story as they are to many news or entertainment-based sites.
- **CITY DIRECTORY** – Much like a search engine, but specific to Plainview, Plainview.com includes a comprehensive City Directory for local businesses that is easy to navigate and provides detailed listings that both locals and travelers are looking for.
